HENDERSON'S SUPERIOR :: BULBS

—For—
Autumn Planting.

..1910..

May we book your order

=====**NOW**=====

**For Shipment as Bulbs Arrive during
Summer and Fall?**

Orders placed with us early enable us to estimate our requirements more closely, and by including your order with ours, for importation, we can afford to sell you at lower rates than in the Autumn, for the reason that when importing on a certainty, we take less risk in having a surplus left. Should we be able to offer anything at a lower rate later in the season we will give you the benefit.

**Thus you have everything to gain and nothing to
lose by ordering NOW.**

=====
**We are the Largest Importers, Dealers and Growers
of Bulbs in America,** and handling the unusually large quantities that we do, and being experienced Forcers and Growers ourselves, we are in consequence enabled to select superior stock at advantageous prices, allowing us to offer Superior Bulbs at reasonable rates.

REMEMBER

The Prices of our Bulbs include

PACKING AND CARTAGE and placing free on board cars or boat in New York. You have no duty, ocean freight from Europe, custom house nor brokerage expenses to pay.

THE NUMEROUS AND FAST TRAINS to all parts of the U. S. from New York give us pronounced advantages for prompt and rapid shipping at low freight rates.

WE RESERVE THE RIGHT TO ADVANCE PRICES on any Bulbs, Roots, Plants or Seeds, before acceptance of order should crop prospects, injury in transit or any unusual conditions prevail to indicate a serious shortage.

=====**TERMS:**=====

TERMS TO PARTIES OF APPROVED CREDIT.

Accounts are due net in two months, 2% off for cash in ten days or 3% off for cash with order or before shipment.

 **EASTER SUNDAY, 1911, COMES ON APRIL 16th.** 

HENDERSON'S SUPERIOR

Early "Roman" Hyacinths.

THE flowers, while smaller than those of the Dutch Hyacinth, yet are produced in much greater abundance—each bulb bearing several very graceful flower spikes. The delicious perfume, earliness and profusion of bloom have made Roman Hyacinths exceedingly popular; they are so easily grown and so early that if potted in August and September they can be brought into flower in November and December, and a succession can be had in bloom throughout the winter. Roman Hyacinths are not considered hardy enough for open-ground culture north of Washington, though in our grounds near New York they have proven perfectly hardy, slightly protected. For cutting purposes the Roman Hyacinth is the finest bulb grown. (See cut.)

What Florists Think of ❀ ❀ ❀

Henderson's Superior Roman Hyacinths.

"I ordered Roman Hyacinths of you in the fall and must say I never saw finer bulbs. Some of them had as many as fifteen, and a few had seventeen spikes of flowers." J. O. GRABB, Cedartown, Ga.

"Your Roman Hyacinths turned out very satisfactory, as always. Send us prices for this season's bulbs and we will send you our order." GRALLERT & CO., Colma, Cal.

NARCISSUS, PAPER WHITE

"Grandiflora," or Large Flowering.

This large flowering type is such an improvement over the ordinary "Paper White" that we have discontinued offering the latter. The "Large Flowering" is more vigorous and earlier, producing purest snow white flowers of large size and good substance in large trusses. The Paper White Narcissus is becoming very popular for growing in bowls of water like the Chinese Narcissus. In fact the Paper White gives so much better satisfaction than the Chinese Lily that it is supplanting the latter for water culture.

Price of extra sized bulbs, 25c. per doz.; \$1.00 per 100; \$9.00 per 1000.

White Callas.—Dry Bulbs.

(Expected for shipment in September.)

The dry bulbs are superior for forcing purposes, as they come into bloom quickly and require less room—making less foliage. Dry bulbs will flower nearly twice as abundantly as plants that have been kept growing or only semi-dormant.

Price, Mammoth bulbs, \$1.00 doz.; \$7.50 per 100; \$60.00 per 1000.

HENDERSON'S SUPERIOR NAMED DUTCH HYACINTHS.

In this grade we offer the largest and best bulbs that the varieties produce. Some kinds, of course, make larger bulbs than others, but purchasers may rely on getting the pick of the crop. These selected "top roots" as the Hollanders call them, naturally cost a little more than the run of crop, but are worth the difference where largest spikes furnished with the greatest number of bells are desired for pots, glasses and exhibition, for the flowers of Hyacinths in an incipient form are stored in the hearts of the bulbs before maturity, exactly as they afterwards develop, so that if you purchase younger, cheaper bulbs, containing in embryo fewer bells on a spike, no system of culture can make them produce more that season. Therefore, for the finest results the best, oldest and largest bulbs (within certain limits) should be chosen, for these usually contain the most perfect and greatest number of flowers.

The figures 1, 2, 3 and 4 after the name of the Hyacinth indicates the relative time of flowering—the 1's flower together and are the earliest, No. 4 the latest.

Henderson's Special Hyacinths

FOR BEDDING AND FORCING.

"We are much pleased with the Henderson Special Hyacinths you sent us last fall; they are very beautiful and we have had them in bloom now over two months."

JOHN ELLIS,
Chatham, N. B., Canada.

HENDERSON'S SPECIAL SECOND SIZE NAMED HYACINTHS.

For Bedding and Forcing.

Henderson's Special Hyacinths (equally useful for bedding or forcing) are larger sized bulbs than those put in ordinary mixtures. They are of the same age as the first size Named Hyacinths offered by us on pages 2 and 3, from which these are the second selection. They will produce fine spikes of bloom, and the different sorts as offered, being of one shade of color, render them of value for bedding in designs, enabling one to obtain the exact color effect desired, which is a great advantage over mixed reds, mixed blues, etc., at but a slight advance in price.

Late Flowering Garden Tulips.

LATE FLOWERING GARDEN TULIPS are now on the rising tide of popularity.

These do not supplant early Tulips for design bedding, but for mixed gardens, herbaceous borders, sunny positions in proximity to shrubbery, etc.—where these late or May-flowering Tulips need not be disturbed, they will prove a source of great satisfaction, being very hardy, continuing to grow, increase and flower for years.

Large Flowering "DARWIN" TULIPS.

These new large-flowering Darwin Tulips produce on strong tall stems—2 to 3 feet in height—immense flowers of symmetrical cup formation and of thick and lasting substance. They are very hardy and in high favor not only for late spring garden decoration, but are becoming increasingly popular for pot and pan culture—flowering beautifully during late winter months if "forced cool."

WHAT FLORISTS THINK OF HENDERSON'S EASTER LILY BULBS.

"We have been more successful with your *Harrisii* bulbs than have any of the other florists in the vicinity of Wheeling with bulbs from other sources."

OSCAR WRIGHT, Moundsville, W. Va.

"You may book my order for 7 to 9 inch *Lilium Harrisii*. Those from you this year were fine."

E. HAENTZE, Florist,
Fond du Lac, Wis.

"I am well pleased with the *Harrisii* Lilies I got from you; they are the best I have had in 10 years."

H. A. MAXINER, Port Jervis, N. Y.

"FORMOSA" LONGIFLORUM LILIES.

FOR EARLY FORCING.

For shipment last of September or early in October to December.

This type of *Lilium longiflorum* from the Island of Formosa has been grown experimentally by a few florists in the U. S. the past two seasons and in most instances has proven the claim that it can safely be forced earlier than any other longiflorum type (excepting *L. Harrisii*). The plants are of healthy strong growth, producing freely, large pure white flowers of splendid lasting substance.

We understand that some stocks of alleged Formosa "Lilies" put out last season were not quite satisfactory, being mixtures of various longiflorum types, but no word of complaint has been received regarding our strain. In fact we have received several commendatory letters with accompanying orders for "Henderson's Strain of Formosa Longiflorums." Our bulbs are coming from the same grower this season as in the past.

THE TRUE BERMUDA EASTER LILY (LILIUM HARRISII.)

Henderson's Superior Northern Grown

...LILIUM CANDIDUM...

(Ready in August.)

Our Liliun Candidums are the thick, broad-petalled type so superior to the narrow-petalled south of France stock. The bulbs are plump, heavy and healthy.

This popular, fragrant, snow-white, hardy garden Lily is also known as "Annunciation Lily," and "Madonna Lily." It grows 3 to 4 feet high, and blooms in the open ground in June. When grown in bold masses or in rows these lilies are especially effective, the brilliancy of their snow-white flowers against surrounding greenery of shrubs, grass and trees is very telling. This lily dislikes being coddled, thriving best when it can remain undisturbed for years in good garden soil.

Price, 8 to 9 inch bulbs, 60c. doz.; \$3.50 per 100; \$32.00 per 1000.

9 to 10 " " 75c. " ; \$4.50 " ; \$40.00 "
